Mail it with your check (made payable to "Tackling TS") to:

Tackling TS Charity
PO Box 14
Kingsley, MI 49649

Registrations will be taken on a first-come first-serve basis. Once the slots are filled, registration is closed.

HOW CAN YOU HELP?

Participate in the Golf Scramble.

Create awareness of TS within your football team and community.

Organization Information

WHAT IS COACHES TACKLE TS?

The friends of Tyler Wooer, who was diagnosed with the disease in 2003, started tackling TS Charity. Our Mission is to raise funds and awareness for the fight against Tuberous Sclerosis on the local and national level. Special thanks to Jason & Sarah Morrow, Ryan and Katie Robison and Joe & Jaime Esper for their efforts in organizing TTS Charity and the Golf Scramble.

WHAT IS TS?

Tuberous sclerosis is a genetic disorder that causes tumors to form in many different organs, primarily in the brain, eyes, heart, kidney, skin and lungs. You will see it referred to both as tuberous sclerosis (TS) and tuberous sclerosis complex (TSC). The true prevalence of TS is unknown, but its incidence has recently been estimated to be 1 in 6,000 live births. This means approximately 50,000 individuals in the United States and more than 1 million worldwide have TSC. It occurs in both sexes and in all races and ethnic groups. Tuberous sclerosis is characterized by lesions of the skin and central nervous system, tumor growth and seizures. The disease affects some people severely, while others are so mildly affected that it often goes undiagnosed. Some people with tuberous sclerosis experience developmental delay, mental retardation and autism.
